DETAILED ACTION

Allowable Subject Matter

1. Claims 1-8, 10 and 12-23 are allowed over prior art of record.
2. The following is an examiner's statement of reasons for allowance: It is agreed that the prior art of record fail to teach or suggest alone or in combination, the limitations: "at least one fluid control system responsive to a control signal, the fluid control system controlling a presence and absence of the first conductive ground plane by selectively adding and removing the conductive fluid to the dielectric structure" as claimed in claim 1; and "wherein the conductive fluid is disposed within a network of channels defined within the dielectric structure" as claimed in claim 6; and "responsive to a control signal, injecting a conductive fluid into at least one cavity contained within the dielectric structure to form a first ground plane for the at least one antenna radiating element" as claimed in claim 14. It is for these reasons in combination with all the other limitations in the independent claims 1, 6 and 14, and in light of the terminal disclaimer filed on 1-12-05 that claims 1-5, 6-8, 10, 12, 13 and 14-23 are allowable over prior art of record.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
